DOCTORS MISTAKES

Are said often to be buried six feet under ground. But many times wemen call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous prostration, another with pain here and there, tration, another with pain here and there, and in this way they present alike to themselves and their easy-going or overbusy doctor, separate diseases, for which he assuming them to be such, prescribes his pills and potions. In reality, they are all only symptoms caused by some uterine disease. The physician, knorant of the cause of suffering, keeps up his treatment until large bills are made. The suffering patient gets no better the reason of the wrong treatment, but probably worse. A proper medicine like Dr. Pierce's Favorite Prescription, directed to the cause would have cultrely removed the disease, there-

proper medicine like Dr. Plerce's Favorita Prescription, directed to the cause would have entirely removed the disease, thereby dispeting all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said, that "a disease known is half cured."

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native American medicinal roots and is perfectly harmless in its effects in the condition of the female system.

roots and is periectly narmiess in its effects in the condition of the female eigsten.

As a powerful invigorating tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For overworked, "worn-out," run-down," debilitated teachers, milliners, dressmakers, scamstresses, "shop-giris," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nervine "Favorite Prescription" is unequaled and is invaluable in allaying and subduing nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms. St. Vitus's dance, and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the uterus. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Pleasant Pellets invigorate the stomach, "yeer and bowels. One to three a dose. Easy to take as candy.

THE APPROACHING COLD WAVE A severe storm amounting in some places to a blizzard and bringing to other regions a heavy downfall of snow driven by a fierce wind, swept over the west yesterday. The storm is moving rapidly east ward. The storm extended as far east as Indianapolie. Oklahoma experienced bail and sleet. The storm played havoc in the Rocky Mountain

Blater. A dispatch from Denver says snow driven by wind of almost harricane violence and accompanied by an extreme drop in temperature, prevailed over eastern Colorado and Wyoming yesterday. At Denver, the mercury dropped from 60 above Tuesday morning to two

above yesterday. An extreme fall in temperature, ranging from 50 degrees at Sedalia, Mo. where it was 8 above zero yesterday, to 22 degrees at Fort Smith, Ark., where it was 28 above, was recorded in the southwest during the last 24 hours. In pasts of Kansas a blinding snow-storm, ac-

companied by high winds, prevails. Northern Pacific trains due at Seattle yesterday are reported from seven to fourteen hours late because of snow drifts in Montana, where in some places the track is buried twenty feet

Nine inches of snow fell in central Icdiana yesterday and last night it was still anowing. Indianapolis is experiencing a blockade of traffic.

The worst blizzard of the winter is interfering with traffic and causing much suffering in St. Louis and throughou Missouri and southern Illinois. The temperature dropped from 65 degrees Tuesday afternoon to 16 last night with zero and 15 inches of snow promised by the westher buresu.

The general storm which is moving eastward across the country took a southern elant last night and entered western Kentucky and Tennessee. In Louisville and western Kentucky from an inch to three inches of sleet covered the ground, and in Memphis and western Tennessee similar conditions prevailed. Colder weather followed closely in the wake of the storm.

On the heels of mild weather a severe storm of sleet and snow was sweeping over the southwest last night. From many points reports comes of colder weather than that experienced during the blizzard of last month when records of 20 years were broken.

Near Chickasa, Okla., 1,500 head of cattle were frozen to death.

They were found at a boarding house last The Price of a Year's Subscription to the night about midnight. The house was night about midnight. The bouse was surrenaded by the police, and the men were captured while they were in bed. Both of the men refused to be interviewed, declining in any way to discuss the case. It will be decided today on 30 days whether to take them back at once or free trial A to await requisition papers from the governor of New Jersey.

The Sayler brothers reached Petersbu g on the night of the 6th instant, two days after the murder, and they went to work on the morning of the 7th at the Excelsior Mills, in that city, where they had been employed ever since.

The police of Atlantic City admit they have an important witness in the tragedy whose name they are unwilling to make public. This witness, a man, it is said, either saw Jane Adams murdered or knows enough of the facts to make the case clear to the police. The man saw the Adams girl with William and Orvis Seyler on the night of Februsry 4, the last time Jane was seen

THE DETROIT MURDER MYS-

Expert testimony was given yesterday in Detroit in the trial of Dr. George A. Fritch, who is charged with manslaughter in connection with the death of Maybelle Millman, whose dismembered body was found in Ecorse creek last September. The witnesses were Drs. Thaddeus Walker and John E. Clark, county chemist. Each doct r testified that after a careful analysis of portions of the girl's body he believed that she was in delicate health at the time she is alleged to have gone to Dr. Fritch's office for trestment. An incident occurred on Payne street yesterday when three dogs t'scked a mail carrier, knocking him down in the mud and scattering his mail on the street. I have been ill for over a month and my rest has been disturbed nightly by the howling and barking of dogs on the street. I hope, Mr. Editor, you can bring this to the attention of our city fathers, who will make some effort to remove a menace from our mail carriers and citizens.
